

# Quick Start Guide for *PreK-K*

## Gather Your Materials

Bibles  
Teacher book  
Dry erase board and markers  
Student book(s)  
Colored pencils

## Teach the Lesson

There are 3 parts to each lesson: Lesson Pages, Lesson Review Questions, and Memory Verse.

### 1. Lesson Pages

- **Teachers Draw:** Teachers draw the stick figure on the dry erase board for the students.
- **Read the Scripture passage:** Read the passage and discuss it with your students. Discussion notes are included in the Teacher book.
- **Students Draw:** Students draw the stick figure image into their books

### 2. Lesson Review Questions

The teacher can ask the review questions and the students answer verbally.

### 3. Memory Verse

Each lesson has a memory verse to go along with the lesson. It is up to the teacher to decide if they want the students to memorize the entire verse or just a portion of the verse. Verses are reviewed verbally.

## Reviews

At the end of each section and the end of the study, there are reviews. These reviews can be completed verbally or used in a game like Jeopardy.

That's all there is to it!

# Teaching Tips

*for PreK-K*

1. Use colored pencils, not crayons or markers for drawing the stick figures. Crayons have a thick line and make drawing in the boxes difficult. Markers bleed through the page.
2. If you are printing your own books, we recommend the thicker paper "24-pound paper" instead of "20 pound".
3. Take the lesson pages out of the student binder before class, the binder rings are hard to draw over.
4. Set out the lesson pages and colored pencils before class. When students come to class, everything is ready to go.
5. Write your notes and application points in the teacher book so you have them now and in the future.
6. Encourage children to add to their drawings, the more they draw and add, the more they remember.
7. Read the lesson passages from different versions of the Bible, if time allows.
8. Simplify the drawings for younger children if needed. The traceable version of the student book is great for younger children who are in a class with older children.
9. Allow different students to draw the pictures on the board.
10. Add as many extra questions to the Lesson Review as time allows and questions you feel your students need to understand that lesson.
11. Have the students review their drawings with dad or a friend. You will be amazed at what they remember!
12. Keep the completed student books as a gift for parents or keepsake. We find kids love to keep them and refer back to them when talking to their friends. Many churches and schools hold the student books in the classroom until the end of the study so that pages are not lost.
13. Use different kinds of games to do Section Reviews and Final Reviews to make them fun.
